## **EnviroCertified** **EnviroCertified.org**

Program administration and public recognition activities are conducted by the Spokane River Forum. The Spokane Regional Health District provides Local Source Control, pollution prevention technical assistance and certification visits.

Funding support and oversight are provided by the Spokane Aquifer Joint Board, City of Spokane Solid Waste Management Department, and Washington Department of Ecology.

## What is EnviroCertified?

EnviroCertified is a voluntary program offered to local small businesses.

The program certifies businesses that have practices and policies in place to properly manage hazardous wastes and conserve resources. A unique partnership between agencies and non-profits provides participants with public recognition and advertising.

### Benefits of Becoming a Certified Business

- Attract customers by being green. Survey results show that 80% of consumers want the businesses they patronize to reduce their use of hazardous materials.
- Gain access to technical assistance resources.
- Create a safer, healthier work environment.
- Reduce regulatory burden.
- Strengthen supplier and agency relationships.
- Increase efficiency and save on disposal and material costs.
- Advertising and promotion:
  - Advertising to attract eco-smart customers.
  - The EnviroCertified logo to use in marketing.
  - Promotion on our website [EnviroCertified.org](http://EnviroCertified.org).
  - An EnviroCertified window decal.
  - A framed certificate of recognition.

### EnviroCertified Program Requirements

- Generate only small quantities of hazardous waste. Typical businesses include auto body and repair shops, dentists, dry cleaners, print services, and small manufacturers.
- Participate in a voluntary Local Source Control site visit with a Spokane Regional Health District representative to verify that you meet qualification standards.
- Set a goal to improve business practices, reduce waste or conserve resources.
- Renew certification every two years.

GOOD FOR BUSINESS  
GOOD FOR THE ENVIRONMENT  
GOOD FOR YOU

## How to Apply

It's easy, voluntary and FREE. The Local Source Control program specialists at Spokane Regional Health District (SRHD) visit small businesses that generate hazardous waste. They offer best management practices and make regulatory compliance recommendations.

1. Contact SRHD to schedule a Local Source Control technical assistance visit.  
Vikki Bathels or Bruce Williams  
(509) 324-1560  
[pollutionprevention@srhd.org](mailto:pollutionprevention@srhd.org)
2. When your business completes the Local Source Control recommendations, it is eligible for EnviroCertified recognition. Applications are available at [www.envirocertified.org/-forms/](http://www.envirocertified.org/-forms/).
3. Fill out the application form either electronically or manually.
  - a. *Electronically*: Type your responses into the writeable PDF form.
  - b. *Manually*: Print a paper copy of the application and fill it out with pen.
4. Send the completed application using one of the following delivery methods:  
Email to: [tonilee@spokaneriver.net](mailto:tonilee@spokaneriver.net)  
Mail to: EnviroCertified  
2206 S. Sherman St.  
Spokane, WA 99203
5. When your application is received, we'll schedule a certification visit to deliver your framed certificate and promotional materials.
